DETAILED ACTION

This Office action is in response to the amendment filed July 17, 2009.

1. The rejection under 35 U.S.C. 103(a) as being unpatentable over CHOI in view of HOULIHAN et al (2004/0265733) is **withdrawn** in view of the arguments by applicants wherein the prior art lacks the defined L^3 .

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 25, 26, 27 and 29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 25 and 29 the variable L^3 definition is unclear and confusing with respect to the definition recited in claims 1, 26 and 27. The definition expands the choices of substituted groups by including additional groups not recited in the claims from which they depend.

Correction is necessary to clarify the definition.

4. Claims 1-15, 18, 19, 21, 23, 24, 28 and 30-35 are allowed.

None of the prior art references disclose the claimed polymer in a process as recited in claim 1.
